Features and benefits

- 1.2 304 stainless steel construction
- Pre-formed central outlet
- Economical
- Huge range of sizes
- "Off the shelf" availability

Product information

Woodroffe's range of stainless steel Raw Edge/Weld in bowls are hand manufactured in a quality controlled environment to ensure that all bowls supplied are of the highest standard possible. Manufactured from 304 grade stainless steel with a pre-formed centrally located 50mm outlet recess, Woodroffe's raw edge/weld in bowls are available "off the shelf" and at a fraction of the cost of custom fabricated bowls.
