

**SALAD BAR**

**Product Code** W/CAT/3M  
W/CAT/4M

**Features and benefits**

- Versatile indoor/outdoor use
- Fully self contained refrigeration
- Manufactured to comply with current health regulations
- Versatile sneeze guards
- Maintenance friendly

**Product information**

The blown air well Salad Bars have been designed around the changing health regulations within Australia. No longer is cold plate refrigeration acceptable for displayed or service style foods. With the introduction of the blown air well it allows cold air to circulate around and over the presented food, this ensures the temperature is maintained at the desired 1 to 4 Deg.

The Salad Bar is available in gastronorm pan sizing. With the 3 – 1/1gastronorm module and 4 – 1/1 gastronorm module as standard stock items. How you choose your combination of pans is up to you.

With the main focus on ease of service, the Salad Bar can be provided with wall style sneeze guard or island service.

The Salad Bar comes to you in its raw finish for you to clad it in any material to suit your decor. The Salad Bar can be optioned with a trolley to make it fully mobile. The options are limitless.
