

Bicycle Racks shown are designed by:

BICYCLE RACKS

Product Code Overbent Rack
Loaf Rack

Features and benefits

- Simple and stylish design
- Several installation options
- Corrosion resistant
- No sharp edges

Product information

Woodroffe can design and manufacture a wide range of standard or custom bicycle racks in stainless steel, galvanised steel or galvanised and powder coated finish.

Racks are available in various configurations, allowing for fastening above ground to concrete, concealed mounting to a concrete footing underneath sand and pavers or with concrete tags which allows the racks to be cast directly into the concrete.
