Product information

The LPG Hideaway was born out of necessity. The demand to camouflage unsightly LPG gas cylinders and protect the same cylinder from vandals, saw the invention of the LPG cylinder enclosure.

The rural house proud home owner has been waiting for this product. Being provided in five colorbond colours it will blend in to any home décor.

The commercial designed vandal resistant model, comes complete with tamper proof, front viewing panels and key locks, this generally frustrates the would be vandal, making it perfect for the rural hotelier, retailer, housing trust, school or government bodies.
