Product information

The Hideaway like most good ideas was born out of necessity. Environmental conditions, both social and climatic have resulted in the need for a pool equipment cover.

The product range is designed to reduce pump noise emissions by up to 75%, protect expensive pool filtration equipment from harmful UV rays and generally hide the unsightly part of your back yard oasis.

The Hideaway is available in an extensive range of BHP colorbond colours, it comes ready to assemble for the DIY householder and is provided in a modular format so it can be multiplied in its width, to best suit your needs.

EXTERNAL STANDARD/ACOUSTIC
