

## HEALTH COMMISSION FLOOR CLEANERS SINK

**Product Code** CLNRH-C

### Features and benefits

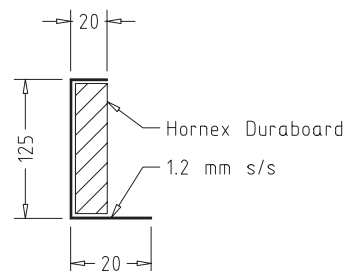

- Fully welded construction
- Stainless steel skirt
- Heavy duty bucket grid
- Health Commission approved

### Product information

Manufactured from 1.2 304 stainless steel these sinks are primarily designed for use in cleaners rooms within hospitals and health clinics but can also be used in factories or wherever there is a requirement for a low level mop sink.

Floor skirts are available in 2-3 sided models with all floor units custom manufactured to suit.
